

**MyDataModels is pleased to announce the appointment of Mr. Mathieu Zamanian as Chief Executive Officer, effective as of September 1<sup>st</sup>, 2021.**

Mr. Zamanian holds a Master's degree in Engineering from Polytech Paris Sud, France and a Master of Business Administration from Pepperdine University, CA. As an entrepreneur, he brings a wide range of experiences from growing companies internationally. His impressive career spans over 25 years, including as Regional Vice President of Sales Europe (EdCast); General Manager France (EF Corporate Solutions); COO (Zags); Senior Sales Director (GenomeQuest Inc.); Cofounder and Managing Director (BSEEN International); Global Account Manager (IBM).

**The company's chairman, Alain Blancquart,** said: *"We are delighted to have Mathieu on board and welcome him to MyDataModels. Mathieu's extensive experience in developing unique technologies will drive the company's expansion strategy."*

**Mathieu Zamanian** said: *"I would like to thank Alain and the board for providing me with this opportunity. I am very pleased and honored to be appointed CEO of MyDataModels."*

"MyDatamodels' unique and patented AI based technology breakthrough is a huge opportunity for companies and professionals to extract value from their operational datasets."
